**BENTLEY INTRODUCES LIGHT PLAY COLLECTION BY
ROBERT A.M. STERN**

Collection Inspired by the Play of Light and Shadow Features Two Styles

LOS ANGELES, Calif. (October 2014) – Bentley, California’s leading commercial carpet manufacturer, has debuted Light Play, a collection designed by legendary architect Robert A.M. Stern. Light Play is a coordinated collection of Bentley carpet tile, as well as textiles by C.F. Stinson, designed specifically for contract interior applications requiring compelling design and high performance.

BENTLEY™

Featuring two styles, SoHo Dawn™ and Melrose Dusk™, the collection is inspired by the play of light and shadow on architectural elements: light glinting off balusters, shining through window blinds, and streaming through grilles; the chiaroscuro effect of light washing across architectural moldings; and sunlight striping a textured surface. It cohesively carries forward RAMSA's modern traditional approach to furnishings informed by architecture.

Designers can specify integrated patterns for fabric and carpet conceived with a shared design sensibility, compatible colorways, a commitment to environmental responsibility, and performance that meets the demands of challenging institutional settings.

SoHo Dawn and Melrose Dusk, are produced using branded Antron® Legacy™ type 6,6 nylon fiber. These styles are available in 24"x24" on Bentley's time-tested NexStep® Cushion Tile and AFIRMA™ Hardback Tile backings. Melrose Dusk is also available in 18"x36".

Light Play products are Cradle to Cradle, NSF® 140, and CRI Green Label Plus certified. The collection is proudly produced in the industry's only LEED®-EBOM Gold-certified manufacturing facility.

About Bentley

Defining style, color, quality, and service for more than 30 years, Bentley Mills, Inc. manufactures and markets award-winning broadloom, carpet tile, and area rug products for all commercial interiors across the globe. Bentley is recognized for leadership in product design, style, and customer service. Bentley is committed to sustainable commerce, and, as the largest commercial carpet manufacturer in California, the company operates in a LEED®-EBOM Gold carpet mill.
