

BENTLEY REACHES NEW HEIGHTS WITH EXPANDING CURIO COLLECTION

Altitude™ and Vertex™ Add Magnitude to Contract Spaces with Peak and Valley Textures

PHILADELPHIA (October 28, 2015) – Henry David Thoreau once said, “The world is but a canvas to our imagination.” [Bentley](#) – California’s leading commercial carpet manufacturer – believes the floor is yours, and the design possibilities are limitless with its latest additions to the Curio Collection.

The two styles mimic the science of elevation and movement, Altitude reflects a heavy, textured cord with multiple pile heights and a luxurious hand. Vertex, a tip-sheared multilevel loop, adds dimension through the complexity of lusters, and multiple values of light and dark. Designed to work together or apart, they also coordinate easily with other products in Bentley’s growing Curio Collection.

PRESS RELEASE

Altitude and Vertex are crafted with Antron® Legacy™ Type 6,6 Nylon. Vertex is available in both carpet tile and broadloom; Altitude™ is broadloom only. Both products are Cradle to Cradle Certified™ Silver, CRI Green Label Plus, NSF/ANSI Standard 140 Sustainability Certified and produced in the industry's only LEED®-EBOM Gold-certified manufacturing facility.

All Curio Collection products are offered with Bentley's COLORCAST™ program, allowing customers to select colors beyond those swatched in the architect folder – including paint chips and fabric swatches. COLORCAST™ utilizes a standard order size of 50 square yards in tile or broadloom (based on style availability) and up to 5 percent overage. With Bentley, the only limit to color is your imagination.
