BENTLEY® TYPECAST
Typecast
It may seem like a simple texture, but Typecast is more than a one-trick-pony. It’s a workhorse. With each colorway washing from light to dark, Typecast turns the tables and delivers an inverse companion of dark to light; providing the ability to create complex visuals without complicating installations.

Patterned carpet may require special attention by the installer to assure a suitable match, and must be addressed in the original labor quotation. Repositioning of carpet tiles may be necessary to ensure light or dark lines do not align at the seams. Products that go through the shearing process may result in a small loss of yarn weight. Slight variations in color among different production lots are normal and should be considered in the overall installation plan. Carpet specifications and components are subject to normal manufacturing tolerances and may change without notice. Product warranted in accordance with the terms and conditions of Bentley’s standard printed warranty in effect at time product is sold. All other warranties, including without limitation any implied warranties of merchantability or fitness for a particular purpose, are hereby disclaimed. Made in USA.
