

DISCORD BY DESIGN

Bentley's New Carpet Style Creates Common Ground for Commercial Interiors with Color

LOS ANGELES (June 2018) — We're surrounded by tension and opposition in nearly all facets of life and business – but it's not all negative, especially in design. Gain clarity through (purposeful) conflict with **Discord**, [Bentley's](#) newest modular carpet style.

Jagged lines at sharp angles layered with frenzied organic scrawls define Discord. But while the subversive patterning sets the tone, it simultaneously gives way to a harmony of colors – 14 of them, each carefully chosen to create subtle yet meaningful interactions on the floor. In fact, Discord is really all about color; its palette encourages coordination of warm and cool neutrals that shift into bolder hues. Together, they fortify movement, and balance the mood and energy of any space.

Bentley at NeoCon50
theMart #1098 | 220 West Kinzie Street

Ideal for large, open interiors, Discord is made with **Antron® Lumena™ Type 6,6 Nylon** for ultimate color and performance. The style is available in 9-inch by 36-inch, 18-inch by 36-inch and 24-inch square NexStep® Cushion Tile, AFIRMA™ Hardback Tile and AFFIXX™ Hardback Tile, Bentley's adhesive-free hook and loop system for modular carpet tile.

Discord is Cradle to Cradle Certified™, NSF® 140 certified, CRI Green Label Plus certified and produced in a LEED®-EB:OM Gold-certified manufacturing facility. Along with Environmental Product Declarations (EPDs) and Health Product Declarations (HPDs), Discord also features the Declare® label and has achieved LBC Compliant status through the Living Building Challenge.
