Creating carpet in a color that exactly aligns to your vision is truly unique in our industry. **COLORCAST** is our proprietary method for matching color from any source including paint chips, fabric swatches, or even fresh fruit!

Bentley COLORCAST™

1. Choose a pattern from the rolls and rolls of tufted greige goods or **create your own version** with the ideal form, texture, and scale to match your vision.

2. Find the color. Find it anywhere. Share it with us.

3. Once the color target is provided **we will create a recipe**, mixing red, blue and yellow dyes in micro amounts to **make the perfect match.**
