

AFFIX™ Hardback Tile

Velcro® Brand Releasable Tab System

DESCRIPTION:

AFFIX VELCRO® Brand Tabs are a completely adhesive-free hook and loop system for modular Bentley Carpet Tile installations. The backing and tab engage each other to create a floating floor that eliminates the need for adhesive yet provides an extremely durable lateral bond. Although this lateral bond is strong enough to withstand heavy commercial foot traffic environments, the tiles can easily be lifted off the floor and replaced or reconfigured with very minimal effort. With the AFFIX system, the tabs can be reused many times over.

Ready to install out of the box, AFFIX VELCRO® Brand Tabs applied to AFFIX Hardback Tiles require minimal prep, are easy to use, and are compatible with most hard substrates. AFFIX Hardback Tiles have a high moisture tolerance (up to 100% RH) and are PVC-Free.

AFFIX VELCRO® Brand Tabs are 6 in. x 6 in., 500 tabs per box. Use approximately 6 tabs per square yard. Carpet tile size and installation method dictate the number of tabs required which varies from 5 to 9 tabs per square yard.

TO USE:

Remove tab from box.

Place tab, smooth side down at carpet tile corner

Install carpet tile to adhere to tab.

Use one tab at every carpet tile corner for 24 in. x 24 in. tiles.

Use one tab at every carpet tile corner plus one placed mid-length, for 18 in. x 36 in. tiles.

Include tabs along the perimeter.
