
FixTabs™

Double Sided, Pressure Sensitive, Releasable Tab System

DESCRIPTION:

FixTabs are designed to easily connect Bentley Carpet Tiles to one another for wall-to-wall installations. Each adhesive tab is designed to securely connect tiles together, and easily release from the substrate when needed. The mild adhesive bond to the substrate prevents tile movement and is 100% releasable leaving no residue.

Ready to install out of the box, FixTabs applied to Bentley AFIRMA® and NexStep® tiles require minimal prep, are easy to use, and are compatible with most hard substrates.

Both AFIRMA and NexStep tiles have a high moisture tolerance (up to 100% RH) and are PVC-Free.

FixTabs are 4 in. x 4 in., 500 tabs per box. Use approximately 6 tabs per square yard. Carpet tile size and installation method dictate the number of tabs required which varies from 5 to 9 tabs per square yard.

TO USE:

Remove tab from roll.

Remove crack and peel to attach to floor.

Place tab, with fiber-reinforced side up, centered at carpet tile corner.

Install carpet tile to adhere to tab.

Use one tab at every carpet tile corner for 24 in. x 24 in.

Use one tab at every carpet tile corner plus one placed mid-length, for 18 in. x 36 in. tiles

Include tabs along the perimeter.
