

EDUCATION SOLUTIONS

Bentley Mills is strongly focused on delivering smart, successful flooring solutions for the complex demands of educational facilities. Long-lasting, beautiful installations are the Bentley legacy.

COST-EFFECTIVE SOLUTIONS & BEST IN CLASS SERVICE

Bentley Mill's Fast Track program is designed for maximum flexibility and expedited delivery. Broadloom, EliteFlex™ 6 ft, carpet tile, and LVT are available in a wide range of colors and styles to meet your budget and deadline. Hundreds of styles are available in orders of 1,500 square yards or less and are ready to ship within 10 business days.

CREATING QUIETER SPACES

In the classroom, utilizing carpet is one of the simplest ways to provide an acoustic finish that reduces the distraction of noise, resulting in a productive learning environment. Bentley Mill's cushion backing decreases noise reduction by up to 30% over a hard surface flooring and up to 20% over a hardback carpet tile.

SIMPLIFIED INSTALLATION & MAINTENANCE

Combining best-in-class fiber and solutions-based backings, Bentley Mills carpets are uniquely suited to stand up to the demands of student spaces. When both hard and soft flooring is called for, Bentley Mills provides seamless transitions from carpet to LVT. Healthbond™ 2399 adhesive complies with EliteFlex™ 6 ft and all Bentley Mills carpet tile backings for 100% moisture tolerance, rH and pH. No moisture testing required.

HIGH PERFORMANCE PRODUCTS = LONG-TERM VALUE

Bentley Mills is dedicated to using only the highest quality materials. Designed to resist staining and maintain resilience, Bentley Mills Premium Nylon holds its texture and color in the most high-traffic environments. This expertise, combined with high-performance fibers, means lower cost of ownership over the lifetime of the products. All products are backed by robust warranties.

VERSATILE DESIGN OPTIONS

The Bentley Mills portfolio of carpet tile, EliteFlex™ 6 ft and Luxury Vinyl Tile (LVT) offers the perfect mix of patterns and colors to inspire thoughtful designs. Floors designed with a combination of styles guide passage through the school—cueing both circulation and wayfinding. Our products are curated to support and enhance the design experience and express school spirit!

SUSTAINABILITY

Proudly manufactured in a LEED EBOM facility, every square yard of carpet Bentley Mills makes is PVC- Free and Red List Free. Bentley Mill's FULFILL™ carpet reclamation program strives for 100% landfill diversion. Our national network facilitates the best reclamation options available, the most cost effective service, and a stress-free experience.
